ROCKDRILL OIL  
Extreme Pressure Rockdrill Oil

Description

ROCKDRILL OIL is a range of extreme pressure rockdrill oils designed for use in all types of rock drilling such as in mining and in construction. The additives used in the formulation give good wear protection coupled with excellent corrosion resistance. It is also suitable for use in a jack hammer.

Outstanding Features

ROCKDRILL OIL gives the following benefits:

- Good wear protection
- Excellent corrosion protection
- Resistant to water washout
- Excellent adhesive and cohesive properties

Directions for Use

ROCKDRILL OIL may be used on any type of pneumatic rockdrill. They give good wear protection to the components and provide excellent anti-corrosion properties.
