TECHNICAL DATA SHEET BLIXEM Aerosol Sanitiser

PRODUCT DESCRIPTION

BLIXEM Aerosol Sanitiser is an indoor air cleaner, with a 70% alcohol base. This is a ready-to-use and highly effective sanitiser, used primarily to sanitise and deactivate viruses in publicly used spaces. The aerosol may be used as a FOGGER or as a conventional aerosol. Once activated, a fine mist, will spray into the air and spread across the enclosed area.

The 250ml content is ideal for disinfecting and sanitising any enclosed area of approximately 100m³, such as reception areas, offices, canteens, bathrooms, workshops, retailers, classrooms, inside cars, buses, and trucks. It may be sprayed directly onto surfaces that are not prone to discolouring, such as door handles, grocery packets, or areas touched by unknown people etc. This product will not harm the skin and it deactivates 99.9% viruses and bacteria in household & industrial applications.

BENEFITS

- Effectively disinfects hard to reach places.
- Effective against bacteria and viruses.

Pre-Cautions

- Ensure the nozzle is pointing away from people before spraying.
- As a fogger, the room should be vacated for 20 min and then aired
- When using or storing, keep away from sources of ignition, away from direct sunlight and below 40 degrees Celsius.

PHYSICAL CHARACTERISTICS

- Appearance: Clear
- Physical state: Liquid
- Density 20°C: 0886 kg/lt
- Flash point: 40°C
- pH: 5.5 – 7.5
