TECHNICAL DATA SHEET

Go-Blue

PRODUCT DESCRIPTION

Go-Blue is a biodegradable and non-hazardous aqueous urea solution designed for vehicles equipped with SCR (Selective Catalytic Reduction) technology, which enables a large proportion of pollutants (Nitrogen Oxides)(NOx) to be converted into harmless water vapour and nitrogen. Especially designed for Euro 4 to Euro 6 trucks and other diesel engines equipped with SCR technology. It is injected in post-combustion before the catalytic converter. This product is neither a fuel nor an additive and should not be mixed with diesel. It goes into a designated tank. It corresponds to 4 to 5% of the diesel consumption.

STANDARD PERFORMANCE

- ISO-22241
- DIN 70070

BENEFITS

- Stable and colorless
- Nontoxic and non-polluting
- Reduces amount of fuel used

KEY PROPERTIES

Density @ 20 °C, kg/L	1.09
Appearance	Colourless
Urea content, weight %	31,8 – 33,2
PH	9.8 – 10
Refractive Index (20°C)	1,3814 – 1,3843
Freezing Point	-10.5
Adour	Ammonia like

PACKAGE SIZE	5 Litres	20 Litres	210 Litres
Fleetline Go-Blue	✓	✓	✓
