## MATERIAL SAFETY DATA SHEET

### Fleetline Compressor 68

#### 1. PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** FLEETLINE COMPRESSOR 68  
**Manufacturer/Supplier:** OILFLOW cc  
P.O. Box 14527  
562 Crocker Road, Wadeville, Germiston, South Africa  
1422  
**Health Emergency Telephone:** 011 827 5848  
**Oilflow Website:** [www.oilflow.co.za](http://www.oilflow.co.za)

#### 2. COMPOSITION/INFORMATION ON THE COMPONENTS

##### Hazardous Components in Product

| Component Name              | Concentration | R Phrases | Classification |
|-----------------------------|---------------|-----------|----------------|
| SOLVENT REFINED MINERAL OIL | >98.00        |           |                |
| PERFORMANCE AGENTS          | <2.00         |           |                |

#### 3. HAZARD IDENTIFICATION

|                             |                                                                                                                                  |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Main Hazards                | Not hazardous according to OSHA 29 CFR 1910.1200                                                                                 |
| Health Effects – Eyes       | May cause irritation to the eyes.                                                                                                |
| Health Effects – Skin       | No hazard providing normal cleansing is carried out.                                                                             |
| Health Effects – Ingestion  | No problems expected for minor ingestion. However, for amounts exceeding ½ litre give 1 or 2 glasses of water and call a doctor. |
| Health Effects – Inhalation | May cause irritation, dizziness or nausea if inhaled over a prolonged period, especially whilst hot.                             |

#### 4. FIRST AID MEASURES

|                        |                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------|
| First Aid – Eyes       | Flush thoroughly with water. If irritation occurs, call a doctor.                                                   |
| First Aid – Skin       | Wash skin with soap and water.                                                                                      |
| First Aid – Ingestion  | Wash out mouth with water. Obtain medical attention. Do not induce vomiting.                                        |
| First Aid – Inhalation | Remove from exposure and if the patient experiences irritation, nausea or unconsciousness, seek medical assistance. |

#### 5. FIRE FIGHTING MEASURES

PO Box 14527, Wadeville 1422

## MATERIAL SAFETY DATA SHEET

### Fleetline Compressor 68

Extinguishing Media  
Unsuitable Extinguishing Media  
Special Hazards of Product  
Protective Equip, for Fire-Fighting

Use foam, dry chemical, carbon dioxide or water fog.  
Do not use water jet.  
No special hazards.  
Wear self-contained breathing apparatus for fires in enclosed spaces.

#### 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions  
Environmental Precautions  
Spillages

Material can create slippery conditions underfoot.  
Try to prevent the material from entering drains or watercourses.  
Contain and absorb using diatomaceous earth or other inert material. Transfer into suitable containers for disposal.

#### 7. HANDLING AND STORAGE

Handling  
Storage

No special precautions are required.  
Storage temperature should be controlled to between 1 and 40°C.  
Where outside storage of drums is unavoidable, they should be stored horizontally to avoid ingress of water.

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Standards  
OIL MIST, CHEMICAL

UK EH40: OES 5mg/m<sup>3</sup> 8 h TWA. UK EH40: OES 10mg/m<sup>3</sup> 15 min TWA.

Engineering Control Measures

Exposure to this material may be controlled in several ways. The measures appropriate for a worksite depend on how the material is used and on the potential for exposure. Use of the basic principles of industrial Hygiene will enable this material to be used safely.

Respiratory Protection  
Hand Protection

Respiratory protection is not normally required.  
No special protection needed. However, good personal hygiene practices should always be followed.

Eye Protection  
Body Protection

Chemical goggles if there is a risk of eye contact.  
Normal work wear.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State  
Colour  
Odour

Liquid  
Amber  
Faint

PO Box 14527, Wadeville 1422

## MATERIAL SAFETY DATA SHEET

### Fleetline Compressor 68

|                                          |           |
|------------------------------------------|-----------|
| pH                                       | N/A       |
| Boiling Range/Point (°C)                 | >320      |
| Flash Point (PMCC) (°C)                  | >200      |
| Solubility in Water (kg/m <sup>3</sup> ) | Insoluble |
| Density @ 20 °C (kg/m <sup>3</sup> )     | 0.877     |
| Auto-flammability (°C)                   | >350      |
| Viscosity @40 °C (cSt)                   | 68        |

#### 10. STABILITY AND REACTIVITY

|                                  |                                                                                                               |
|----------------------------------|---------------------------------------------------------------------------------------------------------------|
| Stability                        | Stable under normal conditions                                                                                |
| Conditions to Avoid              | Strong oxidation                                                                                              |
| Materials to Avoid               | Strong oxidizing agents                                                                                       |
| Hazardous Decomposition Products | Combustion will generate carbon monoxide and smoke, possibly thick and choking, resulting in zero visibility. |

#### 11. TOXICOLOGICAL INFORMATION

|                |                              |
|----------------|------------------------------|
| Acute Toxicity | Low order of acute toxicity. |
|----------------|------------------------------|

#### 12. ECOLOGICAL INFORMATION

|                           |                                                              |
|---------------------------|--------------------------------------------------------------|
| Mobility                  | The product will leach into soil and will float on water.    |
| Persistence/Degradability | The product is expected to biodegrade very slowly with time. |

#### 13. DISPOSAL

|                    |                                                                              |
|--------------------|------------------------------------------------------------------------------|
| Product Disposal   | Dispose of in accordance with all applicable local and national regulations. |
| Container Disposal | An approved drum recycler can recycle containers.                            |

#### 14. TRANSPORT INFORMATION

|            |                |
|------------|----------------|
| Un Class   | Not classified |
| IMO Class  | Not classified |
| IMDG Class | Not classified |
| IATA Class | Not classified |

#### 15. REGULATORY INFORMATION

|                       |          |
|-----------------------|----------|
| Labelling information | Irritant |
|-----------------------|----------|
