## MATERIAL SAFETY DATA SHEET FLEETLINE CIRCULATING (32,46,68,100,150,220)

### 1. PRODUCT AND COMPANY IDENTIFICATION

|                       |   |
|-----------------------|---|
| Trade Name            | FLEETLINE CIRCULATING OILS  |
| Manufacturer/Supplier | OILFLOW cc<br>P.O.Box 14527<br>4 Saligna Road, Boksburg, South Africa<br>1422 |
| Phone Number          | (011) 827-5848  |
| Fax Number            | (011) 827-5832  |
| Oilflow Website:      | <a href="http://www.oilflow.co.za">www.oilflow.co.za</a>                      |

### 2. COMPOSITION/INFORMATION ON THE COMPONENTS

#### Hazardous Components in Product

| Component Name          | Concentration |
|-------------------------|---------------|
| SOLVENT REFINED MINERAL | 99.15         |
| Additives package       | 0.85          |

### 3. HAZARD IDENTIFICATION

If skin contact occurs wash exposed areas with soap and water launder contaminated clothing.

|                             |   |
|-----------------------------|---|
| Main Hazards                | Not hazardous according to OSHA 29 CFR 1910.1200  |
| Health Effects – Eyes       | Not expected to cause eye irritation.   |
| Health Effects – Skin       | Expect to cause no more than minor skin irritation.<br>Prolong or Frequently repeated contact may cause more severe irritation or may cause the skin to become racked or dry from defatting action of the material. |
| Health Effects – Inhalation | May cause irritation, dizziness or nausea if inhaled over a prolonged period, especially whilst hot   |
| Health Effects - Oral       | If more than several mouthfuls are swallowed, abdominal discomfort, nausea, and diarrhoea may occur.  |

### 4. FIRST AID MEASURES

|                       |  |
|-----------------------|--|
| First Aid – Eyes      | Flush thoroughly with water.<br>If irritation occurs, call a doctor.   |
| First Aid – Skin      | Wash skin with soap and water.   |
| First Aid – Ingestion | If swallowed and person is conscious, give water or milk. Do not make person vomit except on advice of medical personnel. If |

## MATERIAL SAFETY DATA SHEET

### FLEETLINE CIRCULATING (32,46,68,100,150,220)

First Aid – Inhalation

advice cannot be obtained, take person and container (or label) to nearest emergency treatment centre, never give anything by mouth to unconscious person.

Remove from exposure and if the patient experiences irritation, nausea or unconsciousness, seek medical assistance.

## 5. FIRE FIGHTING MEASURES

Extinguishing Media

Use foam, dry chemical, carbon dioxide or water fog.

Unsuitable Extinguishing Media

Do not use water jet.

Special Hazards of Product

No special hazards.

Protective Equip, for Fire-Fighting

Wear self-contained breathing apparatus for fires in enclosed spaces.

Igniting temperature

N/A

Flammable limits

N/A

Flash Point

210 - 240°C

Long term toxic

the base oil components are not expected to be carcinogenic based on IARC criteria. This product has not been tested for chronic health effects.

## 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Material can create slippery conditions underfoot.

Environmental Precautions

Try to prevent the material from entering drains or watercourses.

Spillages

Contain and absorb using diatomaceous earth or other inert material. Transfer into suitable containers for disposal.

## 7. HANDLING AND STORAGE

Handling

No special precautions are required.

Storage

Storage temperature should be controlled to between 1 and 40°C. Where outside storage of drums is unavoidable, they should be stored horizontally to avoid ingress of water.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Standards

PO Box 14527, Wadeville 1422  
4 Saligna Road  
Boksburg, Johannesburg

Tel: (011) 827-5848

www.oilflow.co.za

## MATERIAL SAFETY DATA SHEET FLEETLINE CIRCULATING (32,46,68,100,150,220)

|                              |   |
|------------------------------|---|
| OIL MIST, CHEMICAL           | UK EH40: OES 5mg/m <sup>3</sup> 8 h TWA. UK EH40: OES 10mg/m <sup>3</sup> 15 min TWA.   |
| Engineering Control Measures | Exposure to this material may be controlled in several ways. The measures appropriate for a worksite depend on how the material is used and on the potential for exposure. Use of the basic principles of industrial Hygiene will enable this material to be used safely. |
| Respiratory Protection       | Respiratory protection is not normally required.  |
| Hand Protection              | No special protection needed. However, good personal hygiene practices should always be followed.   |
| Eye Protection               | No special eye protection is necessary.   |
| Body Protection              | Normal work wear.   |

### 9. PHYSICAL AND CHEMICAL PROPERTIES

|  |                                    |
|--|------------------------------------|
| Physical State                           | Liquid                             |
| Colour                                   | Amber                              |
| Odour                                    | Faint                              |
| pH                                       | N/A                                |
| Boiling Range/Point (°C)                 | N/A                                |
| Flash Point (PMCC) (°C)                  | EXCEEDS 210                        |
| Solubility in Water (kg/m <sup>3</sup> ) | Insoluble                          |
| Density (kg/m <sup>3</sup> )             | 0.874 – 0.885                      |
| Viscosity (CST) 40°C                     | ISO VG 32,46,68,100,150 &220 Grade |

### 10. STABILITY AND REACTIVITY

|                                  |   |
|----------------------------------|---|
| Stability                        | Stable under normal conditions  |
| Conditions to Avoid              | Strong oxidation  |
| Materials to Avoid               | Strong oxidizing agents   |
| Hazardous Decomposition Products | Combustion will generate carbon monoxide and smoke, possibly thick and choking, resulting in zero visibility. |

### 11. TOXICOLOGICAL INFORMATION

|                |                              |
|----------------|------------------------------|
| Acute Toxicity | Low order of acute toxicity. |
|----------------|------------------------------|

### 12. ECOLOGICAL INFORMATION

|                        |   |
|------------------------|---|
| Environmental Effects: | No specific ecotoxicity on this product are available. This product |
|------------------------|---|

## MATERIAL SAFETY DATA SHEET FLEETLINE CIRCULATING (32,46,68,100,150,220)

may present environmental risks common to oil spills.

### 13.DISPOSAL

|                    |  |
|--------------------|--|
| Product Disposal   | Dispose of in accordance with all applicable local and national regulations. |
| Container Disposal | An approved drum recycler can recycle containers.                            |

### 14.TRANSPORT INFORMATION

|            |                |
|------------|----------------|
| Un Class   | Not classified |
| IMO Class  | Not classified |
| IMDG Class | Not classified |
| IATA Class | Not classified |

### 15.REGULATORY INFORMATION

|                             |   |
|-----------------------------|---|
| Government Inventory Status | Not established.  |
| US Superfund Amendments     | This product contains no "Extremely Hazardous Substances"<br>Respirators must follow as 1715/1716 standard for approved respirators and NZSS 2209/2266 standards. |

### 16.OTHER INFORMATION

|                          |                            |
|--------------------------|----------------------------|
| MSDS Issue:              | 16 June 2018               |
| MSDS Data Revision date: | 01 May 2020                |
| Product Use:             | Anti Wear Circulating oil. |

To the best of our knowledge, the information contained herein is accurate. Although certain hazards may be described we cannot predict that these are the only hazards, or combination of hazards, that may exist in a workplace. This MSDS, therefore, forms a component only of a risk assessment carried out by, or on behalf of, the user.
